

# Music Player for Relaxation

- Rest is a crucial element in life.
  - This webpage will provide users with choices to engage in high-quality rest.
1. Users can choose between active rest and relaxed rest. Depending on the choice, the mood of the webpage, as well as the volume and tempo of the music, will change.
  2. Users can set the duration of their rest. Through planned rest, they can enhance their quality of life.
  3. After the rest period, users can record their satisfaction with the rest session. Through these records, they can plan future rest sessions effectively.
